STATE DOCUMENTS

1973 1974 DIRECTORY OF MONTANA MANUFACTURERS

MONTANA DATA

Population (1970 Census)

State of Montana	694,409
Rank among States	44
Per cent Urban	53.4
Per cent Rural	46.6
Largest Cities	
Billings	61,581
Great Falls	60,091
Missoula	29,497
Butte	23,368
Helena	22,730
Bozeman	18,670

Transportation (1971)

Railway Mileage	5,030
Rural & Municipal Road Mileage	78,920
Number of Public Use Airports	119

Communications (1971)

Commercial Broadcast Stations	60
Daily Newspapers	14

Area (1970 Census)

Total Area (Sq. Miles)	147,138
Land Area	145,587
Inland Water Area	1,551
Rank in Size among States	4

Economics (1971)

Cash Receipts from Farm Marketings	$633,828,000
"Value Added" by Manufacturing	$330,400,000
Value of Mineral Production	$285,073,000
Value of Construction Contracts	$226,284,000
Estimated Wholsale Value, Lumber Products	$149,500,000

Higher Education Institutions

Montana University System	6
Private Colleges	3
Two-Year Community Colleges	3

Post-Secondary Institutions

Vocational-Technical Centers	5

Topography and Climate

The extent of climatic variations is indicated by the range in elevation of from 1,800 feet above sea level to 12,850 feet. The Continental Divide which traverses the state in roughly a north-south direction exerts a marked influence on the climate of adjacent areas. Statistical data by climatological divisions of the state is found in **Climate of Montana,** U. S. Department of Commerce, Environmental Data Service.

THOMAS L. JUDGE
GOVERNOR

State of Montana
Office of The Governor
Helena 59601

Industry is a vital part of Montana together with our clean air, clear mountain streams and vast rolling plains.

The 1973-1974 Montana Directory of Manufacturers is intended to help assist industry in Montana by disseminating information about manufacturing firms to the business community, government agencies and the general public.

Your interest in sharing and using this information about manufacturing in Montana is appreciated. We believe the future growth of Montana will be aided by this interest.

Sincerely,

Thomas L. Judge

FOREWORD

The 1973-1974 edition of the Montana Directory of Manufacturers is the fourth such directory published by the State of Montana. This directory has been prepared to give significant information about individual manufacturing firms, thus serving the manufacturers, the buyers and the general public.

The present edition represents a complete revision of the previous edition. In this directory the capabilities of electronic data processing have been coupled with a computer typeset format to offer the advantages of a continuous periodic updating system, a substantial decrease in the cost of future editions and a more efficient utilization of staff time.

We wish to thank the individual manufacturing firms that provided the basic information utilized in this publication through response to our questionnaire and telephone inquiries. In addition, we thank the individual Chambers of Commerce for their assistance in locating new firms throughout the state. While every effort has been made to insure accuracy, errors may appear in a book of this nature. We regret any inconveniences that may arise from unintentional mistakes. Comments, suggestions as to usefulness and correction of mistakes are welcomed.

The directory was prepared in the Information Systems Bureau of this Department under the general direction of Tom Dundas. The directory was compiled and edited by Dick Dodge with assistance from Howard Huffman. Gary Rogers developed the computer system and survey forms for handling data. Dave DeWolf had the responsibility for the directory in the early months prior to his call for military duty.

We hope that you will find this revised edition of the directory to be of service and that it will be instrumental in developing industry and increased economic opportunities in Montana.

MAJOR GROUP DESCRIPTIONS

1972 Standard Industrial Classification

Major Group 20.—FOOD AND KINDRED PRODUCTS

This major group includes establishments manufacturing or processing foods and beverages for human consumption, and certain related products, such as manufactured ice, chewing gum, vegetable and animal fats and oils, and prepared feeds for animals and fowls.

Major Group 21.—TOBACCO MANUFACTURES

This major group includes establishments engaged in manufacturing cigarettes, cigars, smoking and chewing tobacco, and snuff, and in stemming and redrying tobacco. The manufacture of insecticides from tobacco byproducts is included in Major Group 28.

Major Group 22.—TEXTILE MILL PRODUCTS

This major group includes establishments engaged in performing any of the following operations: (1) preparation of fiber and subsequent manufacturing of yarn, thread, braids, twine, and cordage; (2) manufacturing broad woven fabric, narrow woven fabric, knit fabric, and carpets and rugs from yarn; (3) dyeing and finishing fiber, yarn, fabric, and knit apparel; (4) coating, waterproofing, or otherwise treating fabric; (5) the integrated manufacture of knit apparel and other finished articles from yarn; and (6) the manufacture of felt goods, lace goods, nonwoven fabrics, and miscellaneous textiles.

This classifcation makes no distinction between the two types of organizations which operate in the textile industry: (1) the "integrated" mill which purchases materials, produces textiles and related articles within the establishment, and sells the finished products; and (2) the "contract" or "commission" mill which processes materials owned by others. Converters or other nonmanufacturing establishments which assign materials to contract mills for processing (other than knitting) are classified in nonmanufacturing industries; establishments which assign yarns to outside contractors or commission knitters for the production of knit products are classified in Group 225.

Major Group 23.—APPAREL AND OTHER FINISHED PRODUCTS MADE FROM FABRICS AND SIMILAR MATERIALS

This major group, known as the cutting-up and needle trades, includes establishments producing clothing and fabricating products by cutting and sewing purchased woven or knit textile fabrics and related materials such as leather, rubberized fabrics, plastics and furs.

Included in the apparel industries are three types of establishments: (1) the "regular" or inside factories, (2) contract factories, and (3) apparel jobbers. The regular factories perform all of the usual manufacturing functions within their own plant; the contract factories manufacture apparel from materials owned by others; and apparel jobbers perform the entrepreneurial functions of a manufacturing company, such as buying raw materials, designing and preparing samples, arranging for the manufacture of the garments from their materials and selling of the finished apparel.

Custom tailors and dressmakers not operating on a factory basis are classifed in Industry 5699; establishments which purchase and resell finished garments but do not perform the functions of the apparel jobbers are classified in Group 513.

Major Group 24.—LUMBER AND WOOD PRODUCTS, EXCEPT FURNITURE

This major group includes logging camps engaged in cutting timber and pulpwood; merchant sawmills, lath mills, shingle mills, cooperage stock mills, planing mills, and plywood mills and veneer mills engaged in producing lumber and wood basic materials; and establishments engaged in manufacturing finished articles made entirely or mainly of wood or wood substitutes. Certain types of establishments producing wood products are classified in Major Group 25; musical instruments, toys, and playground equipment, and caskets in Major Group 39, Woodworking in connection with construction, in the nature of reconditioning and repair, or performed to individual order, is classified in non-manufacturing industries.

Major Group 25.—FURNITURE AND FIXTURES

This major group includes establishments engaged in manufacturing household, office, public building, and restaurant furniture; and office and store fixtures. Establishments primarily engaged in the production of millwork are classified in Industry 2431; wood kitchen cabinets in Industry 2434; cut stone and concrete furniture in Major Group 32; laboratory and hospital furniture in Major Group 38; beauty and barber shop furniture in Major Group 39; and woodworking to individual order or in the nature of reconditioning and repair in nonmanufacturing industries.

Major Group 26.—PAPER AND ALLIED PRODUCTS

This major group includes the manufacture of pulps from wood and other cellulose fibers, and from rags; the manufacture of paper and paperboard; and the manufacture of paper and paperboard into converted products such as paper coated off the paper machine, paper bags, paper boxes, and envelopes. Certain types of converted paper products are classified elsewhere, such as abrasive paper in Industry 3291, carbon paper in Industry 3955, and photosensitized and blueprint paper in Industry 3861.

Major Group 27.—PRINTING, PUBLISHING, AND ALLIED INDUSTRIES

This major group includes establishments engaged in printing by one or more of the common processes, such as letterpress, lithography, gravure, or screen; and those establishments which perform services for the printing trade, such as bookbinding, typesetting, engraving, photoengraving, and electrotyping. This major group also includes establishments engaged in publishing newspapers, books, and periodicals, regardless of whether or not they do their own printing. News syndicates are classified in Service Industries (Industry 7351), and textile printing and finishing in Major Group 22.

Major Group 28.—CHEMICALS AND ALLIED PRODUCTS

This major group includes establishments producing basic chemicals, and establishments manufacturing products by predominantly chemical processes. Establishments classified in this major group manufacture three general classes of products: (1) basic chemicals such as acids, alkalies, salts, and organic chemicals; (2) chemical products to be used in further manufacture such as synthetic fibers, plastics materials, dry colors, and pigments; (3) finished chemical products to be used for ultimate consumption such as drugs, cosmetics, and soaps; or to be used as materials or supplies in other industries such as paints, fertilizers, and explosives. The mining of natural rock salt is classified in mining industries. Establishments primarily engaged in manufacturing nonferrous metals and high percentage ferroalloys are classified in Major Goup 33; silicon carbide in Major Group 32; baking powder, other leavening compounds, and starches in Major Group 20; and artists' colors in Major Group 39. Establishments primarily engaged in packaging, repackaging, and bottling of purchased chemical products, but not engaged in manufacturing chemicals and allied products, are classified in trade industries.

Major Group 29.—PETROLEUM REFINING AND RELATED INDUSTRIES

This major group includes establishments primarily engaged in petroleum refining, manufacturing paving and roofing materials, and compounding lubricating oils and greases from purchased materials. Establishments manufacturing and distributing gas to consumers are classified in public utilities industries, and those primarily engaged in producing coke and by-products in Major Group 33.

Major Group 30.—RUBBER AND MISCELLANEOUS PLASTICS PRODUCTS

This major group includes establishments manufacturing from natural, synthetic, or reclaimed rubber, gutta percha, balata, or gutta siak, rubber products such as tires, rubber footwear, mechanical rubber goods, heels and soles, flooring and rubber sundries. This group also includes establishments primarily manufacturing tires, but establishments primarily recapping and retreading automobile tires are classified in Industry 7534. This group also includes miscellaneous finished plastics products. The manufacture of elastic webbing is classified in Major Group 22; products made of elastic webbing and garments made from rubberized fabrics in Major Group 23; and synthetic rubber in Industry 2822.

Major Group 31.—LEATHER AND LEATHER PRODUCTS

This major group includes establishments engaged in tanning, currying, and finishing hides and skins, and establishments manufacturing finished leather and artificial leather products and some similar products made of other materials. Leather converters are also included.

Major Group 32.—STONE, CLAY, GLASS, AND CONCRETE PRODUCTS

This major group includes establishments engaged in manufacturing flat glass and other glass products, cement, structural clay products, pottery, concrete and gypsum products, cut stone, abrasive and asbestos products, etc., from materials taken principally from the earth in the form of stone, clay, and sand. When separate reports are available for mines and quarries operated by manufacturing establishments classified in this major group, the mining and quarrying activities are classified in Division B. When separate reports are not available, the mining and quarrying activities other than those of Industry 3295 are classified herein with the manufacturing operations.

If separate reports are not available for crushing, grinding, and other preparation activities of Industry 3295, these establishments are classified in Division B.

Major Group 33.—PRIMARY METAL INDUSTRIES

This major group includes establishments engaged in the smelting and refining of ferrous and nonferrous metals from ore, pig, or scrap; in the rolling, drawing, and alloying of ferrous and nonferrous metals; in the manufacture of castings and other basic products of ferrous and nonferrous metals; and in the manufacture of nails, spikes, and insulated wire and cable. This major group also includes the production of coke. Establishments primarily engaged in manufacturing metal forgings or stampings are classified in Group 346.

Major Group 34.—FABRICATED METAL PRODUCTS, EXCEPT MACHINERY AND TRANSPORTATION EQUIPMENT

This major group includes establishments engaged in fabricating ferrous and nonferrous metal products such as metal cans, tinware, hand tools, cutlery, general hardware, nonelectric heating apparatus, fabricated structural metal products, metal forgings, metal stampings, ordnance (except vehicles and guided missiles), and a variety of metal and wire products not elsewhere classified. Certain important segments of the metal fabricating industries are classified in other major groups, such as machinery in Major Groups 35 and 36; transportation equipment, including tanks, in Major Group 37; professional scientific and controlling instruments, watches and clocks in Major Group 38; and jewelry and silverware in Major Group 39. Establishments primarily engaged in producing ferrous and nonferrous metals and their alloys are classified in Major Group 33.

Major Group 35.—MACHINERY, EXCEPT ELECTRICAL

This major group includes establishments engaged in manufacturing machinery and equipment, other than electrical equipment (Major Group 36) and transportation equipment (Major Group 37). Machines powered by built-in or detachable motors ordinarily are included in this major group, with the exception of electrical household appliances (Major Group 36). Portable tools, both electric and pneumatic powered, are included in this major group, but hand tools are classified in Major Group 34.

Major Group 36.—ELECTRICAL AND ELECTRONIC MACHINERY, EQUIPMENT, AND SUPPLIES

This major group includes establishments engaged in manufacturing machinery, apparatus, and supplies for the generation, storage, transmission, transformation, and utilization of electrical energy. The manufacture of household appliances is included in this group, but industrial machinery and equipment powered by built-in or detachable electric motors is classified in Major Group 35. Establishments primarily engaged in manufacturing instruments for indicating, measuring, and recording electrical quantities are classified in Industry 3825.

Major Group 37.—TRANSPORTATION EQUIPMENT

This major group includes establishments engaged in manufacturing equipment for transportation of passengers and cargo by land, air, and water. Important products produced by establishments classified in this major group include motor vehicles, aircraft, guided missiles and space vehicles, ships, boats, railroad equipment, and miscellaneous transportation equipment such as motorcycles, bicycles, and snowmobiles. Establishments primarily engaged in manufacturing mobile homes are classified in Industry 2451.

Major Group 38.—MEASURING, ANALYZING, AND CONTROLLING INSTRUMENTS: PHOTOGRAPHIC, MEDICAL, AND OPTICAL GOODS: WATCHES AND CLOCKS

This major group includes establishments engaged in manufacturing instruments (including professional and scientific) for measuring, testing, analyzing, and controlling, and their associated sensors and accessories; optical instruments and lenses; surveying and drafting instruments; surgical, medical, and dental instruments, equipment, and supplies; ophthalmio goods; photographic equipment and supplies; and watches and clocks.

Major Group 39.—MISCELLANEOUS MANUFACTURING INDUSTRIES

This major group includes establishments primarily engaged in manufacturing products not classified in any other manufacturing major group. Industries in this group fall into the following categories: jewelry, silverware and plated ware; muscial instruments; toys, sporting and athletic goods; pens, pencils, and other office and artists' materials; buttons, costume novelties, miscellaneous notions; brooms and brushes; caskets; and other miscellaneous manufacturing industries.

How To Use This Directory

SECTION I — ALPHABETICAL SECTION (BLUE)

This section is coded with blue paper and lists alphabetically the names of the manufacturing firms in Montana. Information included in this section is the address, the phone number, the city, the zip code, the chief executive, the size (S=1-10 employees, M=11-50 employees, L=over 50 employees and U=unknown number of employees) and the products the firm manufactures together with their respective SIC codes. The following is an example of the information listed in this section:

Sweetgrass County Creamery ..... *Name of Firm*
Box 370 932-2501 ..... *Address & Phone Number*
Big Timber 59011 ..... *City & Zip Code*
Sweet Grass County ..... *County*
C E Pataja Owner S ..... *Chief Executive, Title & Size of Firm*
Butter 2021 ..... *Products & SIC Codes (In Italics)*
Ice Cream 2024
Cottage Cheese 2026

SECTION II — GEOGRAPHICAL SECTION (PINK)

This section is coded with pink paper and lists the manufacturing firms in alphabetical order within each city. The cities are also listed in alphabetical order. An example of the information listed in this section follows:

Big Timber ..... *Name of City*
Big Timber Bakery ..... *Alphabetical Listing*
R & R Locker Plant *of Manufacturing Firms*
Sweet Grass County Creamery *Wtihin the City*

SECTION III — PRODUCT SIC LISTING (YELLOW)

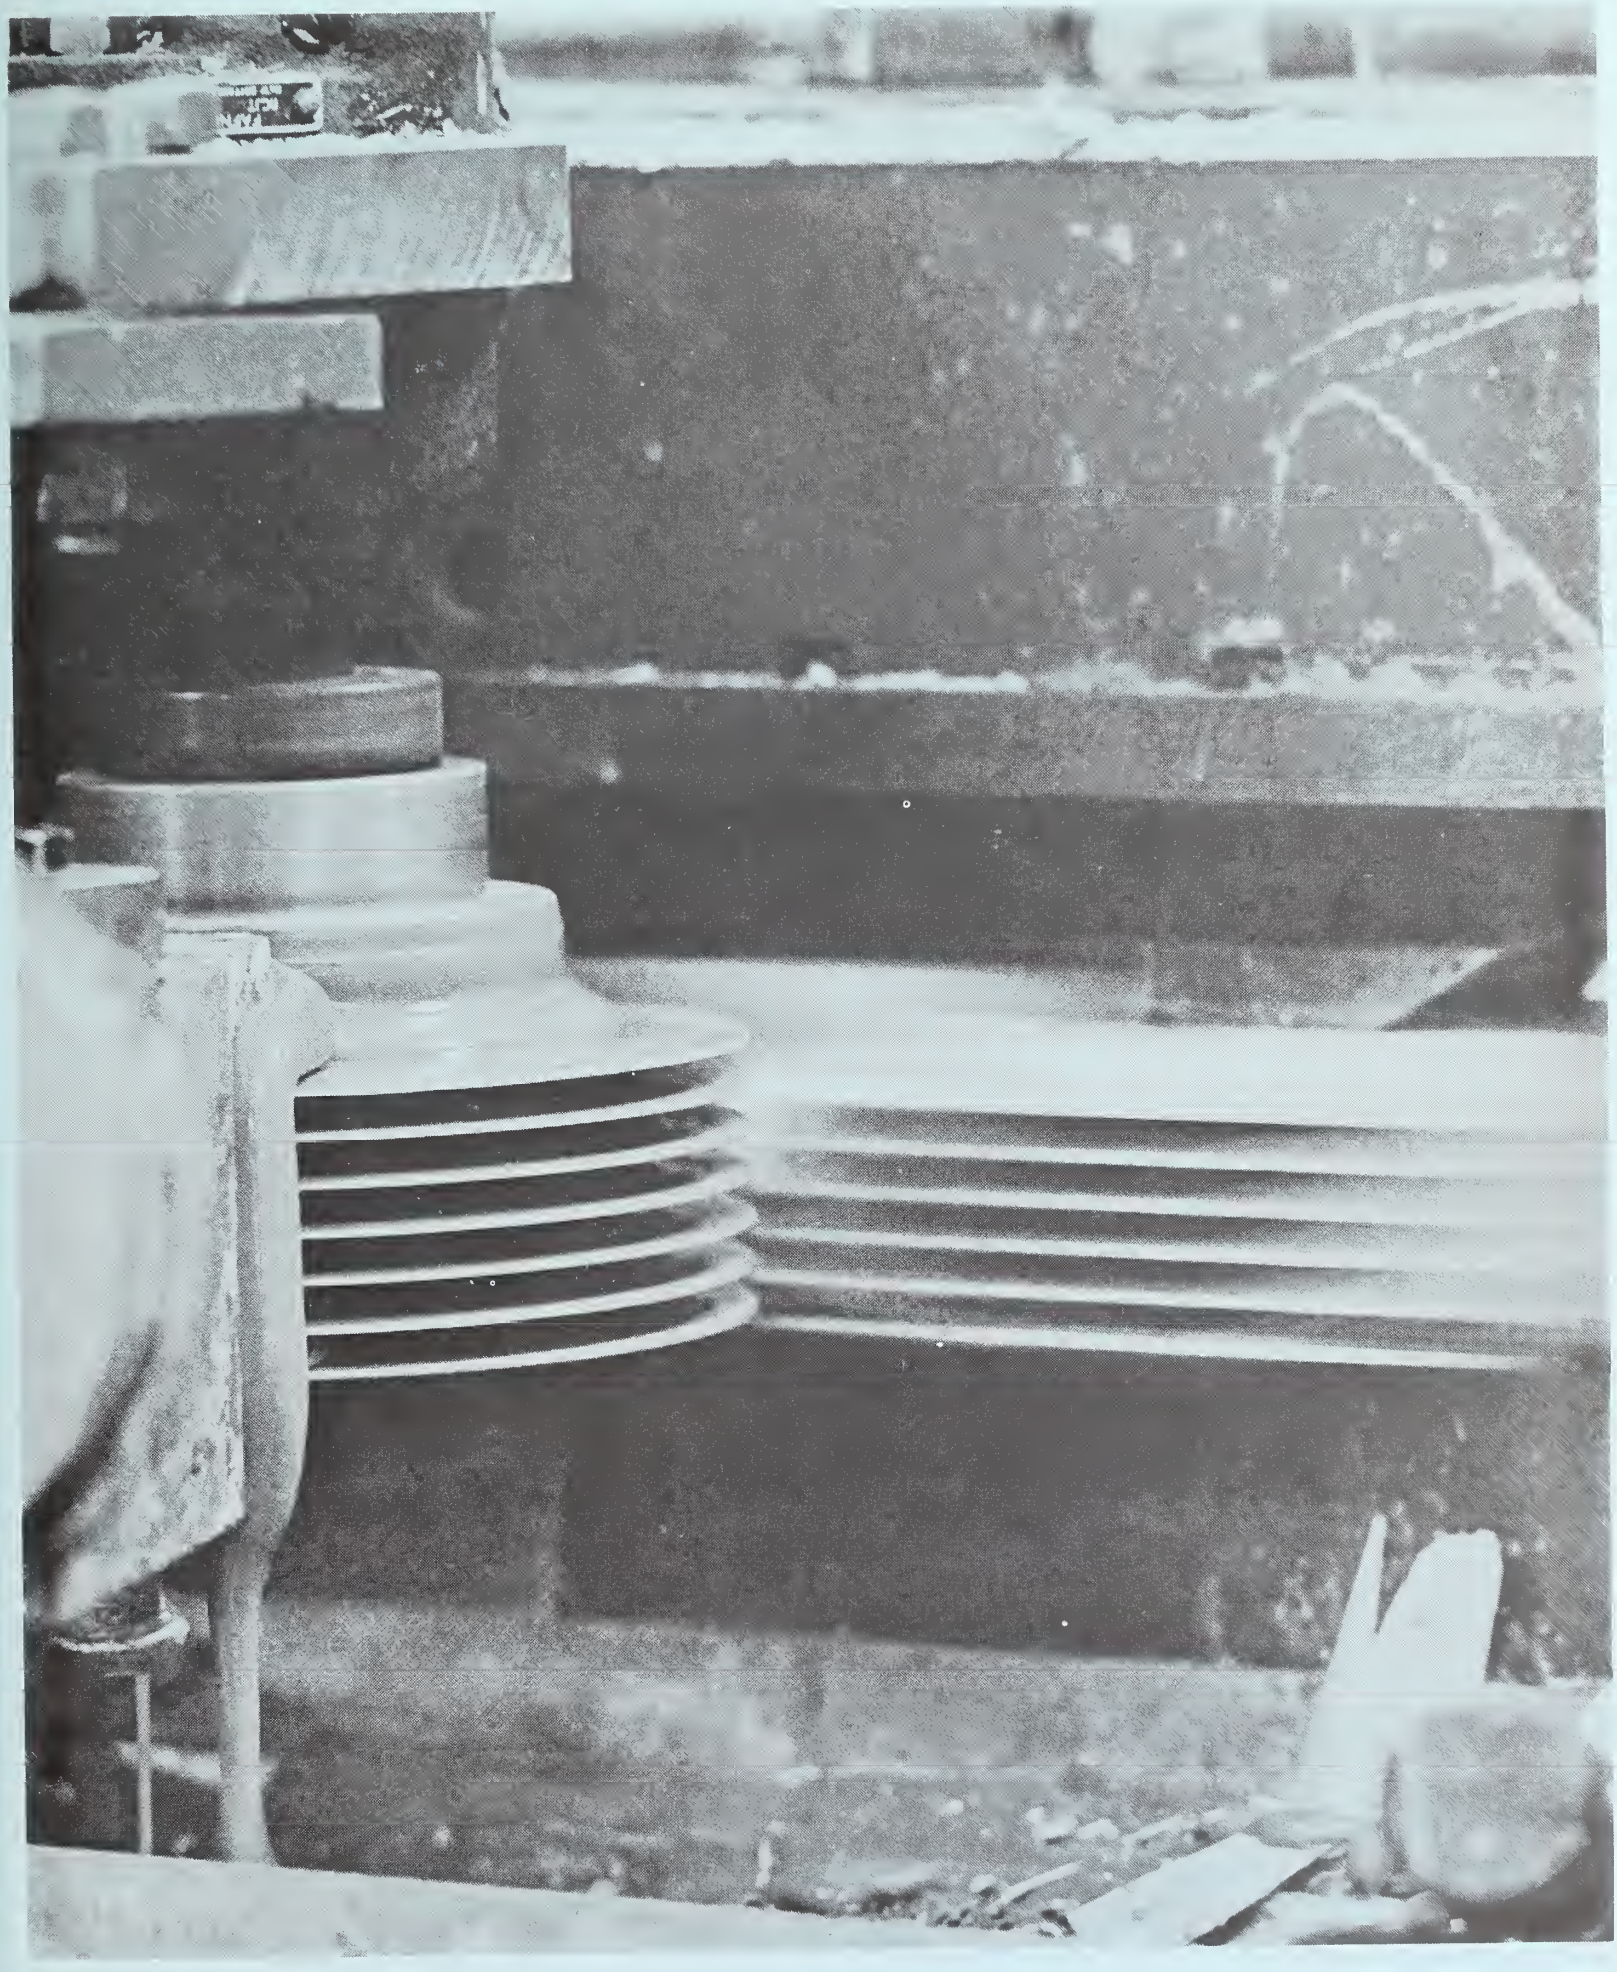
This section is coded with yellow paper and lists the manufacturing firms in alphabetical order under the SIC code of a particular product which the firm manufactures. Other information included in this section is the address, the phone number, the city in which the firm is located, its zip code, the chief executive of the firm and his title and the size of the firm (S=1-10 employees, M=11-50 employees, L=over 50 employees and U=unknown number of employees). An example of this information follows:

2024-Ice Cream and Frozen Desserts ..... *Four Digit SIC & Title*
Sweetgrass County Creamery ..... *Name of Firm*
Box 270 932-2401 ..... *Address & Phone Number*
Big Timber 59011 ..... *City & Zip Code*
C E Pataja Owner S ..... *Chief Executive, Title & Size of Firm*

SECTION IV — PRODUCT ALPHABETICAL LISTING (GREEN)

This section is coded with green paper and lists the manufacturing firms alphabetically under a particular product the firm manufactures. The SIC code of the product is also listed. An example of this information follows:

Butter **2021** ..... *Product & SIC Code*
Jersey Creamery ..... *Alphabetical Listing of Firms*
Sweet Grass County Creamery *Manufacturing this Product*



Wood passed through finger jointer/fluer at many Montana plants for greater utilization.

Products and supplies move steadily at Anaconda's Great Falls operation.

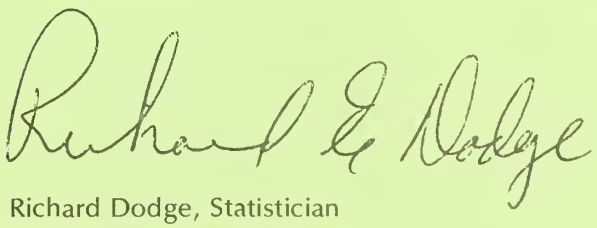
The 1973-1974 Montana Manufacturers Directory and Future Editions

The composition of the 1973-1974 Montana Directory of Manufacturers has been completely modified with a process that we believe will serve as a basis for all future editions. Because of the importance in editing directories of this nature, it is felt that the user should have some insight as to how the directory was compiled.

First a questionnaire was composed and sent to each manufacturer in Montana. An example of this form is located on the facing page. Three different mailings were sent out to the manufacturers over a four month period in order to insure some completeness to the directory. When the forms had been completed and returned, the information was keypunched directly from the form onto tabulation cards. These cards were then converted to magnetic tape from which an exact duplicate of the questionnaire and its information was outputted. This output was then used to proofread for mistakes, duplicates and other errors.

The corrected magnetic tape was then sent to a firm in Chicago for a process called photo-composition. This procedure involves the use of a computer to convert the data contained on the magnetic tape to photo negatives which can be used directly in printing the directory. This offers the advantage of eliminating second and third proof-readings of the output.

In future editions of the directory we will send the questionnaire to any new manufacturers and send a copy of the current information to the manufacturers already listed. These can then be checked for any errors or changes and returned for updating the next editions. This process should decrease the time and cost necessary for publishing a directory and it should also reduce the number of typographical errors and other printing mistakes. We believe we will then produce a directory that will be more beneficial to the manufacturing firms in Montana.



Richard Dodge, Statistician

Plant Location & Expansion Technical Assistance

The State of Montana, through its Bureau of Economic Development, offers a wide range of planning and development services to assist firms in making location decisions. Our experienced staff of specialists are prepared to provide you with accurate, timely information and quality technical advice.

Our people are thoroughly familiar with the forces and factors that have influenced, and are likely in the future to influence, Montana and its communities. They are knowledgeable about plant location matters that include sites, products, power and fuel, raw materials, natural resources, labor, transportation, business laws, economics and communities.

These services in combination with the close working relationships established with other governmental agencies, state and local development groups, financial institutions and others are all designed to help you achieve sound location decisions and quality development in Montana. They are services for you to use. Our professional personnel will be happy to respond to your inquiries or to call on you to discuss your specific immediate or long-term interests on a confidential basis and without obligation.

For assistance in solving your plant location and expansion problems contact:
